

QUT MENTORING PARTNERSHIP

Stanwell has partnered with Queensland University of Technology (QUT) to connect professionals with students as part of the Career Mentor Scheme. The scheme supports students in a range of fields and disciplines over a six month period.

The partnership not only benefits the mentors and mentees, it creates a stronger association with QUT by supporting our existing work experience, university placement and graduate programs. Both Stanwell and QUT have a strong commitment to a diversified workforce, and encourage any student to explore forming a mentoring partnership to discuss their studies and future career path.

More info?

If you are a QUT student and want to find out more information please talk to the QUT Student Success Group.
